

M3-01: Mi primera calculadora

The screenshot shows the Android Studio IDE with the following components:

- Project Explorer (Left):** Shows the project structure for 'M3-01'. The 'java' directory contains 'com.example.m3_01', which includes files for 'Addition', 'Calculator', 'Division', 'MainActivity', 'Multiplication', 'Operation', and 'Subtraction'.
- Main Editor:** Displays the code for 'MainActivity.java'. The code defines a 'MainActivity' class that extends 'AppCompatActivity'. It includes a 'testCalculator()' method that performs various operations (Addition, Subtraction, Multiplication, Division) and logs the results. A specific log entry is made for division by zero: 'División por cero: Resultado inválido (NaN)'.
- Logcat (Bottom):** Shows the runtime logs for the app. The logs indicate that the app started successfully and performed the following calculations:
 - Suma: 15.0
 - Resta: 5.0
 - Multiplicación: 50.0
 - División: 2.0
 - División por cero: Resultado inválido (NaN)
